

Blood Draw Sites

If you have had blood tests ordered by your Practical Healing provider, you will need to arrange a blood draw appointment. See below for our preferred phlebotomy locations and services.

****Unless told otherwise, please fast for 12 hours prior to your Lab Draw Appointment.**

Labcorp Order

You can go to any Labcorp location (Walgreens with Labcorp offices are also acceptable) to be drawn. Please be sure to have your ID with you and they can pull your order up in their system.

If you would like to take a copy or need to access it the order a copy will have also been emailed to you by RUPA Health.

Although walk-ins are welcome, we recommend scheduling an appointment to avoid wait times.

Lab Kit (a kit has been mailed/given to you for a lab draw)

:

- Bring the **entire** lab kit/box to your lab draw appointment. A prepaid shipping label is included and necessary for the lab company to mail out your sample
- Be sure to freeze the cold packs, if they are included in your kit, 24 hours prior to your intended lab draw date.

We recommend going to Any Lab Test Now (several locations are listed below)

*There is a small fee associated with the blood draw

Medina

330-723-8378

5515 Buehlers Dr. Suite 102
Medina, OH 44256

Canton

330-915-8232

4782 Dressler Rd. NW
